-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Drawings

Figures 1A-1B should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Rejections and/or objections as previously applied

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 13-22 as previously presented, are rejected under 35 U.S.C. 103(a) as being unpatentable over Stetter et al. (US publication 2002/0155676) in combination with Toyoda (US publication 2003/0002238) and Ohtani et al. (US patent 6,088,070).

With respect to presently presented claims 13-22, Stetter et al. in combination with Toyoda and Ohtani et al. teach the invention as claimed. **See the contents of the office action dated 09/16/05.**

Response to Arguments

Applicant's arguments filed 12/16/05 have been fully considered but they are not persuasive. See below.

With respect to the arguments in the bottom paragraph on page 10 of the response dated 12/16/05, it is submitted that Stetter et al. teach forming an interlayer insulating film 20 having a first trench or first electrode opening 22 (see fig.2), forming a second trench or second electrode opening in the interlayer insulating film 20 that exposes a side of the first electrode 26 (see the opening between layer 26 of fig. 3).

With respect to the arguments in the top paragraph on page 11 of the response dated 12/16/05, it is submitted that Stetter et al. teach that the conductive layer 26 is formed before the second trench (see the opening between layer 26 of fig. 3). Further, it is submitted that the teaching of the hole 24 is not being relied on for in the rejection.

Allowable Subject Matter

Claims 6-12 and 24-40 are allowed.

Claim 23 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
